SUFFRAGE ACTIVITIES.

What the Organization is Accomplishing Throughout the State. Suffrage workers here gave out the following Saturday, relative to their activities in the state: Connecticut is taking part in the nation-wide enterprise arranged by the National Woman Suffrage association

The pin is that aspecial rarge issue of one of the newspapers in one town or city in every county should be publis! I that week. A suffrage special edition in every county throughout the length and breadth of the United States is the sum of the Neitonel. ed States is the aim of the National Suffrage association. It is harly likely that this aim will be fully realized. In fact there are many counties in the United States in which there is not a ingle daily newspaper issued. But adoubtedly there will be a larger publeation of suffrage news and suffrage eatures in every state of the Union

than has ever been seen before in the history of this or any other country. Paper to Be Published. The newspaper editors and publish ers in this state are taking a warm in

terest in the enterprise, and are fering hearty co-operation with the suffragists. Arrangements are not yet complete for these issues, but it is safe to say that there will not be a spot in Connecticut where a special suffrage edition of one of the newspapers commonly circulated in the town or city will not make its appearance at the appointed time.

"May I express to you and your orcanization," wrote President Wilson,
"as well as to the women of North
Dakota my congratulations upon the
passage by the legislature of that state of a bill granting to the women of the state the right to vote for presidential electors and for municipal officers? As you know I have a very real interest in the extension of the suffrage to women and I feel that every step in this direc-tion should be applauded."
